

# **2020 - 2021 REFERENCE GUIDE**

## DEAR CUSTOMERS

Norview Gardens Ltd., a Canadian and family owned business, has been growing quality ornamental grasses for 25 years. In 1996, Paul Scharringa started the business on a farm that he purchased near the quaint village of Norwich, Ontario, Canada. Growing up and working alongside his father, son Jeff became fully involved and is now a co-owner of the business. Norview Gardens Ltd. started by growing a few species of ornamental grasses and a few other perennials but soon concentrated solely on grasses.

We are producers of liners/plugs available to our customers for potting up, and also provide landscape ready plants which are supplied to the many high-quality plant nurseries and garden centres here in Ontario and throughout Canada.

We are privileged to be part of such a great industry where we are able to grow and provide quality grasses for the beautification of the surrounding landscapes and home gardens, and we are committed in continuing to serve this industry to the best of our abilities.

We are very thankful and appreciative of your support that has helped us grow over the years. It is our sincere hope that this new product guide will be a helpful reference tool to select from the many ornamental grasses that our company has to offer. We look forward to working with you in the coming year and for many more years to come.

*"Commit to the LORD whatever you do,  
and He will establish your plans." Proverbs 16:3*

Paul Scharringa  
Jeff Scharringa

# TERMS & CONDITIONS OF SALE

## **GUARANTEE:**

Norview Gardens Ltd. guarantees our stock to be in healthy condition upon leaving our facility. Beyond that we cannot be held responsible for stock that does not grow, as we have no control over conditions outside of our facility.

We warrant our stock to be true to name.

Should any stock prove to be untrue to name we will replace it or return amount paid for such stock. We shall in no case be liable for any sum greater than the amount originally received for the said plant material.

## **TERMS:**

30 days credit is extended only to clients with established credit. 2% per month (24% per annum) will be charged on overdue accounts.

For accounts that are past due 60 days, terms are COD only and any available discounts will be forfeited until the account is brought current.

## **PRICING:**

All prices are FOB our nursery located in Norwich, Ontario, Canada and are subject to change without notice. Packaging, tags, shipping charges, applicable taxes, and any other accessorial charges are not included in the base price of the said plant and will be added at time of shipping. Patented plants require a royalty fee which will be added to the cost as a separate line item.

## **PRICING DISCOUNTS:**

Volume discounts are awarded based on the number of trays purchased. The levels of applicable discounts can be found on the order form. Discounts are only awarded to accounts in good standing.

## **PAYMENT:**

We accept payment by cheque, electronic funds transfer (EFT), and e-transfer. All payments must be made in Canadian funds.

## **PACKING:**

All packing material, whether boxes or one-way wooden shipping racks, will be billed to customer at cost. Wood racks are non-returnable but are reusable. For local deliveries done by our own truck we will use our metal rolling racks.

## **SHIPPING:**

Local shipping: Delivery can be arranged with our own trucks or customers may choose to pick up their order. If picking up, please give us at least 48 hours' notice to ensure your order will be ready.

Long distance shipping: We may use various courier companies or Canada Post for smaller orders, and LTL truck services for larger orders that are shipped on skids or racks. For LTL, please ensure you have a loading dock able to handle transport trucks or a forklift to off load.

Shipments may be delayed under extreme weather conditions or other conditions beyond our control. We will do our best to get the shipment out as soon as conditions allow. We are in no way liable for plant material damaged in shipping and/or delay in transit. Such issues are the responsibility of the carrier and should be addressed with the carrier.

## **CLAIMS:**

Check plants immediately upon arrival at your location. No claims will be entertained for deficiencies or rejections of stock unless made within three days of arrival. Please carefully inspect condition of goods received for damaged skids, boxes, or racks, frozen product or other obvious abuse of product prior to signing the delivery slip. Once the delivery slip is signed by the receiver no claims can be made regarding the freight handling.

Whenever possible please include photos that support your claim to help speed up the process.

# ORDERING GUIDELINES

## HOW TO ORDER:

- Email: [sales@norviewgardens.ca](mailto:sales@norviewgardens.ca)
- Call: (519) 468-3547
- Fax to email: (519) 468-3247
- Web Site: [www.norviewgardens.ca](http://www.norviewgardens.ca)  
and use our downloadable availability  
& order form

## ORDERING PROCESS:

- Order: Place your order using email, phone, or fax.
- Acknowledgment: We will acknowledge your order by sending a copy of the Sales Order via email.
- Confirmation: Please examine the Sales Order carefully and reply your approval prior to order shipping. Please also note any corrections or changes at that time.
- Invoicing: Invoices will be sent via email whenever possible. Please ensure your Accounts Payable information is correct, including a valid email address.

## ORDER DETAILS:

- Liners/plugs are shipped in full trays only and are available in plug sizes of 72, 50, and 40 plants per tray as indicated on the order form. For example, if you require 200 plugs/liners of a 72 size please order 216 plants (3 trays). Each tray consists of one variety – no mixed trays.
- 1L pots must be ordered 10/tray per species
- 15cm pots must be ordered 8/tray per species
- 2 gallon pots may be ordered individually

## PLANT TAGS:

- Each liner/plug tray comes with a 1"x 5" white stick tag printed with the scientific name of the plant in that tray. Bilingual (English & French) picture tags are available in most cases and can be ordered at a cost of \$0.15/each. Please indicate the required number of picture tags on the order form.
- All 1L, 15cm, and 2 gallon pots come with a picture tag included in the price.

## PATENTED PLANTS:

We are required (at no extra charge) to send tags with select patented plants. Patented plants will be charged a royalty fee.

Propagation is strictly forbidden without a license.

**Acorus americanus**

## Sweet Flag

Foliage height: ..... 60-90 cm

Foliage width: ..... 70-90 cm

Flowering time: Late spring - summer

Native N.A. wetland plant with attractive, upright foliage providing a vertical focal point in natural or man-made water features. Plant in shallow margins of water or bog garden.

ZONE 3

**Acorus gramineus 'Oborozuki'**

## Japanese Rush

Foliage height: ..... 25-30 cm

Foliage width: ..... 10-15 cm

Flowering time: Late spring - summer

Hardy bog plant, native to Japan and Eastern Asia. Has eye-catching, upright, yellow-striped foliage. Thrives in the shallow edges of streams and ponds.

ZONE 4-11

**Acorus gramineus 'Variegatus'**

## Variegated Sweet Flag

Foliage height: ..... 50-60 cm

Foliage width: ..... 45-60 cm

Flowering time: Late spring - summer

Striking foliage provides wonderful color and texture for shaded gardens. An excellent groundcover for open woods, at water's edge, and in ponds or water gardens in up to 10 cm of water. Flowers are generally inconspicuous.

ZONE 4-11

**Alopecurus pratensis 'Aureovariegatus'**

## Golden Foxtail Grass

Foliage height: ..... 45-60 cm

Foliage width: ..... 30-60 cm

Flowering time: ..... Spring

Golden, variegated foliage with golden seed spikes. Slow spreading with a low-growing mat-like habit. Water regularly. Excellent show planted with spring bulbs.

ZONE 4

### Andropogon gerardii

#### Big Bluestem

Foliage height: ..... 150-200 cm  
Foliage width: ..... 60-100 cm  
Flowering time: Late summer - fall

A robust, American native, clump-forming grass that produces dense, feathery flower panicles above many stems of wide leaves. Turns bronze-red after frost. Flowers resemble a turkey's foot.

ZONE  
3-9

### Andropogon gerardii 'Blackhawks'

#### Big Bluestem

Foliage height: ..... 125-150 cm  
Foliage width: ..... 50-60 cm  
Bloom height: ..... 150 cm  
Flowering time: Late summer - fall

Dark green foliage that turns to purples, burgundies, and reds by mid-summer, intensifying even more into fall. Introduced by Intrinsic Perennial Gardens. Propagation strictly prohibited. PP27949

ZONE  
3-9

### Andropogon gerardii 'Dancing Wind'

#### Big Bluestem

Foliage height: ..... 140-160 cm  
Foliage width: ..... 50-60 cm  
Bloom height: ..... 160 cm  
Flowering time: Late summer - fall

Blue-green, upright foliage turns to a brilliant scarlet by autumn. From Intrinsic Perennial Gardens. PP26892

ZONE  
3-9

### Andropogon gerardii 'Indian Warrior'

#### Big Bluestem

Foliage height: ..... 150-175 cm  
Foliage width: ..... 50-60 cm  
Bloom height: ..... 175 cm  
Flowering time: Late summer - fall

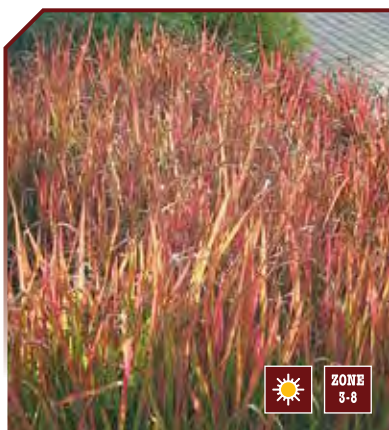

Tall, upright clumps of green foliage that turn to purplish tones late summer into fall. Deep purple inflorescence. From Intrinsic Perennial Gardens. PP24999

ZONE  
3-9

Photo courtesy of Walters Gardens, Inc.

### Andropogon gerardii 'Red October'

#### Big Bluestem

Foliage height: ..... 150-200 cm  
Foliage width: ..... 60-100 cm  
Bloom height: ..... 200 cm  
Flowering time: Late summer - fall

Deep green foliage turning to reds and burgundies into fall. Outstanding late season color. From Intrinsic Perennial Gardens. PP26283

ZONE  
3-8

### Andropogon virginicus

#### Broomsedge

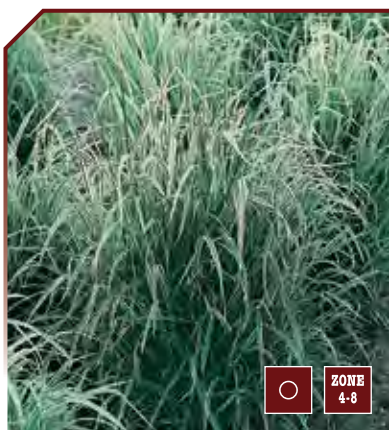

Foliage height: ..... 100-125 cm  
Foliage width: ..... 40-60 cm  
Bloom height: ..... 125 cm  
Flowering time: Late summer - fall

A native clump-forming grass producing dense, feathery flower panicles above many stems of wide leaves. Excellent choice for mass plantings or as a dried flower.

ZONE  
3-8

### Arrhenatherum bulbosum 'Variegatum'

#### Striped Tuber Oat Grass

Foliage height: ..... 30-40 cm  
Bloom height: ..... 30-40 cm  
Flowering time: Late spring - summer

Variegated green-white clumps, serving well as a groundcover. Performs better in cooler climates. Cut back during summer heat.

ZONE  
4-8

### Bouteloua curtipendula

#### Side Oats Grama

Foliage height: ..... 40-100 cm  
Foliage width: ..... 50-60 cm  
Bloom height: ..... 90-100 cm  
Flowering time: Late spring - summer

Fine-leaved, sod-forming native grass producing delicate seed heads above graceful foliage. Excellent in meadows or prairie gardens.

ZONE  
4-9

### Bouteloua gracilis

#### Blue Grama

Foliage height: ..... 50-60 cm  
 Foliage width: ..... 25-30 cm  
 Bloom height: ..... 60 cm  
 Flowering time: ..... Summer

One of the most important prairie grasses, standing only 30 cm tall when in flower. Drought tolerant, thriving in full sun and dry conditions.

### Bouteloua gracilis 'Blonde Ambition'

#### Blue Grama

Foliage height: ..... 50-60 cm  
 Foliage width: ..... 25-30 cm  
 Bloom height: ..... 60 cm  
 Flowering time: ..... Summer

Fine-textured, blue-green foliage sporting flag-like dainty blooms horizontally above the foliage. Yellow (blonde) seed heads right on through the fall. Very rugged and cold hardy. PP22048

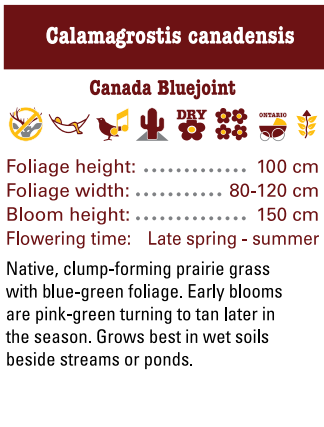

### Calamagrostis brachytricha

#### Korean (Autumn) Feather Reed Grass

Foliage height: ..... 90 cm  
 Foliage width: ..... 60-90 cm  
 Bloom height: ..... 125 cm  
 Flowering time: Late summer - fall

Easily grown, forming an upright, arching clump topped with rosy-purple spikes appearing in September. Flower spikes can be useful in floral arrangements or left in the garden for unusual winter interest.

### Calamagrostis canadensis

#### Canada Bluejoint

Foliage height: ..... 100 cm  
 Foliage width: ..... 80-120 cm  
 Bloom height: ..... 150 cm  
 Flowering time: Late spring - summer

Native, clump-forming prairie grass with blue-green foliage. Early blooms are pink-green turning to tan later in the season. Grows best in wet soils beside streams or ponds.

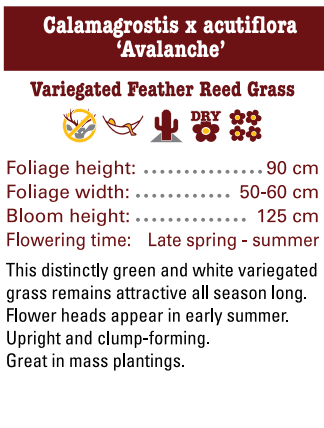

### Calamagrostis stricta

#### Northern Reed Grass

Foliage height: ..... 60-120 cm  
 Foliage width: ..... 80-120 cm  
 Bloom height: ..... 150 cm  
 Flowering time: Late spring - summer

A slender, clump-forming upright grass for the garden, landscape, or at water's edge. Narrow, red-bronze flower spikes dry to golden-buff color, excellent as a dried flower or left uncut for winter interest.

### Calamagrostis x acutiflora 'Avalanche'

#### Variegated Feather Reed Grass

Foliage height: ..... 90 cm  
 Foliage width: ..... 50-60 cm  
 Bloom height: ..... 125 cm  
 Flowering time: Late spring - summer

This distinctly green and white variegated grass remains attractive all season long. Flower heads appear in early summer. Upright and clump-forming. Great in mass plantings.

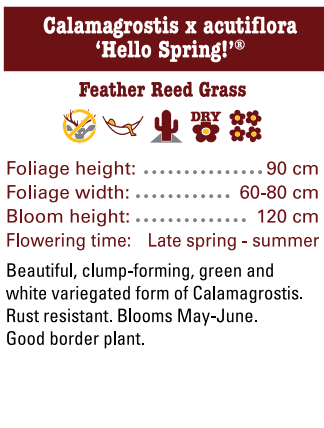

### Calamagrostis x acutiflora 'Eldorado'

#### Feather Reed Grass

Foliage height: ..... 100 cm  
 Foliage width: ..... 50-60 cm  
 Bloom height: ..... 150 cm  
 Flowering time: Late spring - summer

The golden variegation will brighten any spot in the garden. The narrow stature of the grass reacts to the breezes, adding motion to the garden. PP16486

### Calamagrostis x acutiflora 'Hello Spring!'

#### Feather Reed Grass

Foliage height: ..... 90 cm  
 Foliage width: ..... 60-80 cm  
 Bloom height: ..... 120 cm  
 Flowering time: Late spring - summer

Beautiful, clump-forming, green and white variegated form of Calamagrostis. Rust resistant. Blooms May-June. Good border plant.

Photo courtesy of Emerald Coast Growers

### Calamagrostis x acutiflora 'Karl Foerster'

#### Feather Reed Grass

Foliage height: ..... 100 cm  
Foliage width: ..... 60-80 cm  
Bloom height: ..... 150 cm  
Flowering time: Late spring - summer

Deep green, clump-forming foliage.  
Slender, red-bronze flower spikes  
dry to a beautiful buff color.  
Perennial Plant of the Year 2001.

### Calamagrostis x acutiflora 'Lightning Strike'®

#### Variegated Feather Reed Grass

Foliage height: ..... 90 cm  
Foliage width: ..... 60-80 cm  
Bloom height: ..... 100 cm  
Flowering time: Late spring - summer

Wide, creamy-white stripe in the  
centre of the green leaves. Purple-pink  
plumes appear in summer and last  
well into the fall.

### Calamagrostis x acutiflora 'Overdam'

#### Variegated Feather Reed Grass

Foliage height: ..... 90 cm  
Foliage width: ..... 50-60 cm  
Bloom height: ..... 125 cm  
Flowering time: Late spring - summer

One of the finest perennial grasses,  
valued for its vertical growth habit  
and green and white variegated foliage.  
Produces many pinkish, feathery blooms  
in summer. Excellent as a specimen  
or in mass plantings.

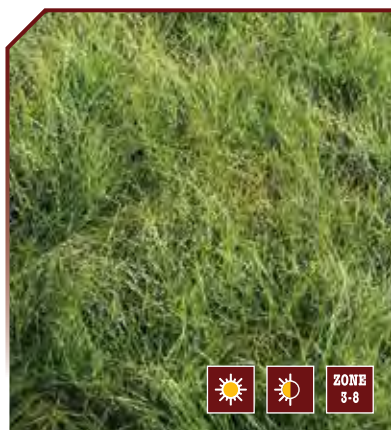

### Calamagrostis x acutiflora 'Waldenbuch'

#### Feather Reed Grass

Foliage height: ..... 70-100 cm  
Foliage width: ..... 50-60 cm  
Bloom height: ..... 150 cm  
Flowering time: ..... Late summer

Lush green foliage turns to a light  
yellow in fall. Has a looser habit than  
Karl Foerster and appears more arching.  
Flowers are a silvery-green that turn  
to a buff wheat color in the fall.  
Plant as a specimen or in mass plantings.

### Carex appalachica

#### Appalachian Sedge

Foliage height: ..... 30 cm  
Foliage width: ..... 30-45 cm  
Flowering time: ..... Spring

A lovely native groundcover for dry,  
shady areas. Very fine, deep green,  
clumping foliage. Similar in many  
ways to Carex pensylvanica.

### Carex bebbii

#### Bebb's Sedge

Foliage height: ..... 60-80 cm  
Foliage width: ..... 5-10 cm  
Flowering time: Late spring - summer

A clump-forming, fine-textured sedge  
that bears interesting seed heads.  
Excellent selection for moist shade  
gardens and streambanks.

### Carex buchananii

#### Leather Leaf Sedge

Foliage height: ..... 50-60 cm  
Foliage width: ..... 30-45 cm  
Flowering time: Late spring - summer

Tufted, evergreen perennial with  
cinnamon-colored foliage for contrast  
with other garden colors. Great for  
mass planting. Prefers moist locations.

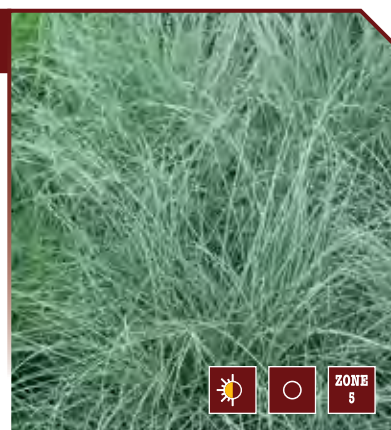

### Carex comans 'Amazon Mist'

#### New Zealand Hair Sedge

Foliage height: ..... 15-30 cm  
Foliage width: ..... 30 cm  
Flowering time: Summer - late summer

Very fine, wispy foliage that is green  
on top and silvery-white below.  
Excellent as a filler in mixed planters  
or landscape beds.

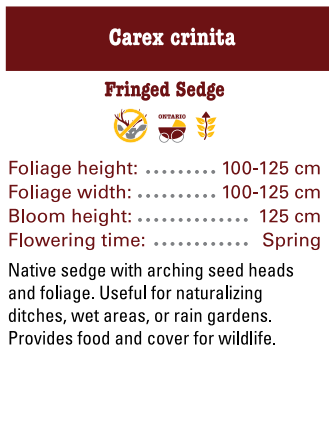

### Carex comosa

#### Longhair Sedge

Foliage height: ..... 100-125 cm  
 Foliage width: ..... 50-60 cm  
 Flowering time: Late spring - summer  
 This sedge has long, green leaf blades topped with showy seed heads. Excellent choice for wetland restoration and other moist sites.

### Carex crinita

#### Fringed Sedge

Foliage height: ..... 100-125 cm  
 Foliage width: ..... 100-125 cm  
 Bloom height: ..... 125 cm  
 Flowering time: ..... Spring  
 Native sedge with arching seed heads and foliage. Useful for naturalizing ditches, wet areas, or rain gardens. Provides food and cover for wildlife.

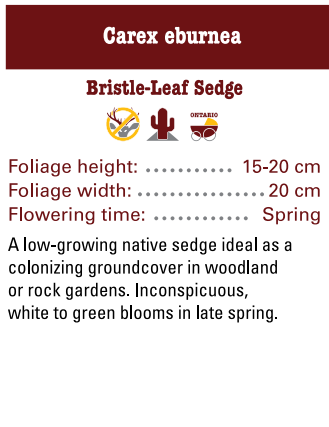

### Carex dolichostachya 'Kaga Nishiki'

#### Gold Fountains

Foliage height: ..... 20-25 cm  
 Foliage width: ..... 15-20 cm  
 Flowering time: ..... Spring  
 A spectacular sedge with graceful, variegated foliage. Useful as an accent plant in the shaded perennial garden or as a groundcover.

### Carex eburnea

#### Bristle-Leaf Sedge

Foliage height: ..... 15-20 cm  
 Foliage width: ..... 20 cm  
 Flowering time: ..... Spring  
 A low-growing native sedge ideal as a colonizing groundcover in woodland or rock gardens. Inconspicuous, white to green blooms in late spring.

### Carex elata 'Aurea'

#### Bowles' Golden Sedge

Foliage height: ..... 45-60 cm  
 Foliage width: ..... 30-40 cm  
 Bloom height: ..... 60 cm  
 Flowering time: ..... Late spring  
 Spectacular, vibrant sedge that bears beautiful golden foliage with a thin green margin. Makes a beautiful accent plant in the perennial garden and will brighten any deeply shaded spot.

### Carex glauca 'Blue Zinger'

#### Sedge

Foliage height: ..... 30-40 cm  
 Foliage width: ..... 40-50 cm  
 Flowering time: ..... Late spring  
 Steel-blue foliage holding its color into winter. Excellent choice for a groundcover. Once established, it is drought tolerant.

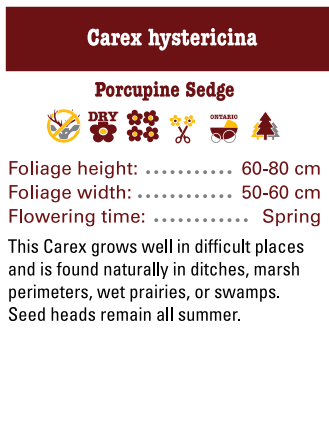

### Carex grayi

#### Gray's Sedge

Foliage height: ..... 60-90 cm  
 Foliage width: ..... 50-60 cm  
 Flowering time: ..... Spring  
 A spectacular, semi-evergreen sedge with large, showy seed heads. Good choice for moist shade gardens. Can be used fresh or dried in arrangements.

### Carex hystericina

#### Porcupine Sedge

Foliage height: ..... 60-80 cm  
 Foliage width: ..... 50-60 cm  
 Flowering time: ..... Spring  
 This Carex grows well in difficult places and is found naturally in ditches, marsh perimeters, wet prairies, or swamps. Seed heads remain all summer.

### Carex laxiculmis 'Hobb'

#### Bunny Blue™ Sedge

Foliage height: ..... 15-30 cm  
Foliage width: ..... 30-40 cm  
Flowering time: Late spring - summer

Native plant with silvery-blue, grass-like foliage. Best used as a border plant, a groundcover, in bog areas, in shade gardens, around ponds, or by streams.

### Carex morrowii 'Ice Dance'

#### Sedge

Foliage height: ..... 30 cm  
Foliage width: ..... 50-60 cm  
Flowering time: ..... Spring

Dark green leaves with bright white edges. This sedge spreads slowly, is useful as a groundcover or in a mixed container.

### Carex morrowii 'Silver Sceptre'

#### Variegated Sedge

Foliage height: ..... 25-30 cm  
Foliage width: ..... 30-60 cm  
Flowering time: Late spring - summer

Narrow leaves with white margins. Used for mass planting, border edging, groundcover, naturalizing woodland gardens, and in mixed containers.

### Carex muskingumensis

#### Palm Sedge

Foliage height: ..... 60-90 cm  
Foliage width: ..... 45-60 cm  
Flowering time: ..... Spring

Beautiful fine-textured sedge for shaded settings. Excellent as a groundcover, lawn substitute, or edging in the garden. Spreads slowly by rhizomes.

### Carex oshimensis 'Evergold'

#### Sedge

Foliage height: ..... 30 cm  
Foliage width: ..... 20-30 cm  
Flowering time: ..... Spring

An eye-catching sedge with green and creamy-yellow variegated foliage. A great accent plant in the perennial garden.

### Carex pensylvanica

#### Pennsylvania Sedge

Foliage height: ..... 15-30 cm  
Foliage width: ..... 30-45 cm  
Flowering time: ..... Spring

A very popular, low-growing native sedge. Does well as a groundcover for dry woodland shade. Sometimes used as a "no-mow" lawn.

### Carex rosea

#### Rosy Sedge

Foliage height: ..... 20-30 cm  
Foliage width: ..... 5-10 cm  
Bloom height: ..... 30 cm  
Flowering time: ..... Spring

A small perennial, clumping sedge with fine foliage. One small part of its green seed head has a rosey hue to it. Plant in dry to moist shade.

### Carex stricta

#### Tussock Sedge

Foliage height: ..... 60-90 cm  
Foliage width: ..... 30-50 cm  
Bloom height: ..... 90 cm  
Flowering time: ..... Summer

This sedge has gracefully arching, almost fountain-like foliage. Grows well in open wet places such as marshes, along streams, by ponds, bogs, or wetlands.

### Carex vulpinoidea

#### Fox Sedge

Foliage height: ..... 30-90 cm  
Foliage width: ..... 40-50 cm  
Bloom height: ..... 90 cm  
Flowering time: ..... Summer

A North American native wetland sedge. Clump-forming with seed heads emerging from the centre of the plant for an interesting effect.

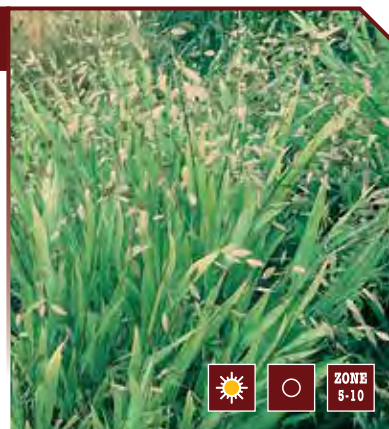

### Chasmanthium latifolium

#### Northern Sea Oats

Foliage height: ..... 75-90 cm  
Foliage width: ..... 30-60 cm  
Bloom height: ..... 90 cm  
Flowering time: .... Early summer

Broad leaf blades that are dark green in shade, but lighter in a sunny location. Large, showy seed heads that are great for cut arrangements, fresh or dried.

### Cortaderia selloana

#### White Pampas Grass

Foliage height: ..... 250-300 cm  
Foliage width: ..... 125-150 cm  
Bloom height: ..... 300 cm  
Flowering time: .... Late summer

Dramatic flower plumes and towering form create a breathtaking display. Grow as an annual in the north or must be wintered indoors.

### Cortaderia selloana 'Pumila'

#### Compact Pampas Grass

Foliage height: ..... 100-125 cm  
Foliage width: ..... 60-90 cm  
Bloom height: ..... 125 cm  
Flowering time: .... Late summer

A compact Pampas Grass. Narrow, grey-green foliage topped with large silky-white plumes. Grow as an annual in the north or must be wintered indoors.

### Cortaderia selloana 'Rosea'

#### Pink Pampas Grass

Foliage height: ..... 250-300 cm  
Foliage width: ..... 125-150 cm  
Bloom height: ..... 300 cm  
Flowering time: .... Late summer

This majestic ornamental grass boasts long, pendulous, medium green grass-like leaves and tall, fluffy flowers of soft rose. Grow as an annual in the north or must be wintered indoors.

### Deschampsia cespitosa

#### Tufted Hair Grass

Foliage height: ..... 60-100 cm  
Foliage width: ..... 60-80 cm  
Bloom height: ..... 100 cm  
Flowering time: .... Early summer

Abundant sprays of delicate flowers appear early and stay attractive through the season. Plant in flower or rock gardens, at water's edge, or in open woods.

### Deschampsia cespitosa 'Bronzeschleier'

#### Bronze Veil Tufted Hair Grass

Foliage height: ..... 60-80 cm  
Foliage width: ..... 50-60 cm  
Bloom height: ..... 100 cm  
Flowering time: .... Early summer

Low mounds of dark green foliage topped with clouds of tiny, bronze-green flowers. Makes a good accent plant, but also used in mass plantings.

### Deschampsia cespitosa 'Goldschleier'

#### Gold Veil Tufted Hair Grass

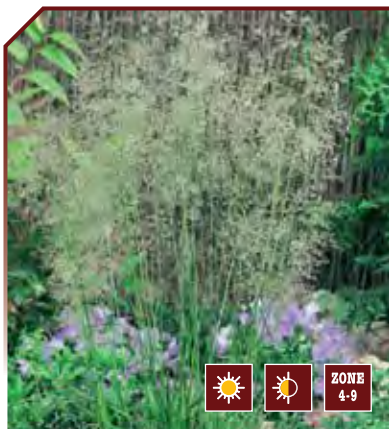

Foliage height: ..... 30-60 cm  
Foliage width: ..... 50-60 cm  
Bloom height: ..... 60 cm  
Flowering time: .... Early summer

Abundant sprays of light golden-yellow flowers atop the dark green foliage. Plant in flower or rock gardens, at water's edge, or in open woods.

### **Deschampsia cespitosa 'Gold-tau'**

#### **Golden Dew Tufted Hair Grass**

Foliage height: ..... 30-60 cm  
 Foliage width: ..... 40-60 cm  
 Bloom height: ..... 60 cm  
 Flowering time: .... Early summer

Sprays of golden-yellow flowers appear early and stay attractive through the season. Lovely in cut arrangements, fresh or dried.

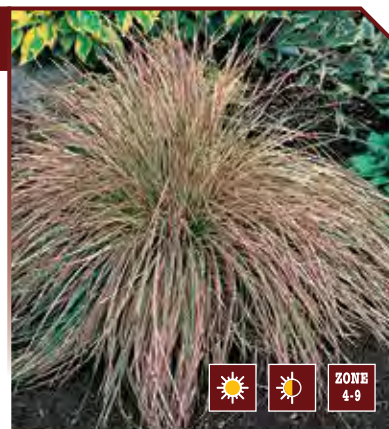

### **Deschampsia cespitosa 'Northern Lights'**

#### **Tufted Hair Grass**

Foliage height: ..... 25-30 cm  
 Foliage width: ..... 40-50 cm  
 Bloom height: ..... 30 cm  
 Flowering time: .... Early summer

Striking, variegated foliage compliments abundant sprays of delicate flowers all summer. Foliage is exceptionally brilliant in cool weather. Good cut flower.

### **Deschampsia cespitosa 'Pixie Fountain'**

#### **Dwarf Tufted Hair Grass**

Foliage height: ..... 60-80 cm  
 Foliage width: ..... 30-45 cm  
 Bloom height: ..... 80 cm  
 Flowering time: ..... Spring

Silver-green foliage producing silvery-white flowers. Flowers mature to a rich brown color, great for cut arrangements, fresh or dried.

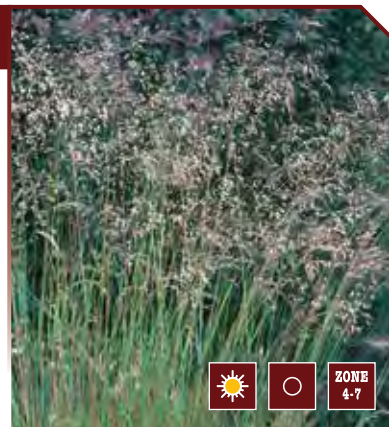

### **Deschampsia flexuosa**

#### **Crinkled Hair Grass**

Foliage height: ..... 20-60 cm  
 Foliage width: ..... 30-50 cm  
 Bloom height: ..... 60 cm  
 Flowering time: .... Early summer

A more fine-textured and delicate form of the Tufted Hair Grasses. A native that thrives in dry shade. Used to naturalize sites, planted in masses.

### **Eleocharis obtusa**

#### **Blunt Spike Rush**

Foliage height: ..... 20-40 cm  
 Foliage width: ..... 20-25 cm  
 Flowering time: .... Early summer

A hardy bog plant with attractive lime-green clumps topped with brown, button-like flowers. First to arrive in a freshly dug pond and perfect for the rain garden. Dense stands are perfect for dragonflies and frogs.

### **Elymus arenarius (Leymus)**

#### **Lyme Grass**

Foliage height: ..... 100 cm  
 Foliage width: ..... 40-50 cm  
 Bloom height: ..... 150 cm  
 Flowering time: ..... Summer

Very hardy, upright, blue-grey foliage topped by blue-grey flower spikes turning to light beige. Spreads by rhizomes. In the garden, plant in containers to control spreading. Useful as a groundcover and for erosion control.

### **Elymus arenarius 'Blue Dune' (Leymus)**

#### **Lyme Grass**

Foliage height: ..... 60-80 cm  
 Foliage width: ..... 60-80 cm  
 Flowering time: ..... Summer

Coarse, silvery-blue foliage. Slightly arching, upright clump topped by wheat colored plumes. Very heat tolerant. Used for erosion control, hillside plantings, and container plantings.

### **Elymus canadensis**

#### **Canada Wild Rye**

Foliage height: ..... 125-150 cm  
 Foliage width: ..... 60-90 cm  
 Bloom height: ..... 150 cm  
 Flowering time: .... Late summer

Attractive, clump-forming, cool season grass that has arching blades and greenish flower plumes.

### Elymus canadensis 'Icy Blue'

#### Canada Wild Rye

Foliage height: ..... 140 cm  
Foliage width: ..... 60-90 cm  
Flowering time: ..... Late summer

Clump-forming with blue-grey foliage producing seed heads which remain attractive long into winter. Planted on slopes for erosion control. Useful when planted as a habitat for wildlife.

### Elymus virginicus

#### Virginia Wild Rye

Foliage height: ..... 100-150 cm  
Foliage width: ..... 50-60 cm  
Flowering time: ..... Late summer

This cool season native grass has arching blades and greenish flower plumes. Terrific planted on shaded banks, fence rows, or open woodland. Drought tolerant once established.

### Eragrostis spectabilis

#### Purple Love Grass

Foliage height: ..... 25-60 cm  
Foliage width: ..... 40-50 cm  
Flowering time: ..... Late summer

This showy grass has light green foliage in summer that turns bronze-red in fall. Red to purple flowers are soft and subtle. Use as accent plant or in masses.

### Erianthus ravennae (Saccharum)

#### Hardy Pampas Grass

Foliage height: ..... 150-300 cm  
Foliage width: ..... 125-200 cm  
Bloom height: ..... 300 cm  
Flowering time: ..... Late summer

Dramatic flower plumes are striking in the garden and excellent cut for dried arrangements. Beautiful specimen for a large garden, reflected in water, or in natural areas in the landscape. Not invasive.

### Festuca glauca

#### Blue Fescue

Foliage height: ..... 20-35 cm  
Foliage width: ..... 25-30 cm  
Bloom height: ..... 35 cm  
Flowering time: ..... Late spring

Clump-forming, stiff, thread-like, blue foliage which produces steel-blue flower heads. Excellent choice for rock gardens, borders, or groundcover.

### Festuca glauca 'Beyond Blue'<sup>TM</sup>

#### Blue Fescue

Foliage height: ..... 20-30 cm  
Foliage width: ..... 20-30 cm  
Bloom height: ..... 30 cm  
Flowering time: ..... Late spring

The best blue foliage Fescue that stands up in the heat of summer. Spikes of tan flowers in early summer. A low-maintenance, reliable performer.

PP23307

### Festuca glauca 'Blue Whiskers'

#### Blue Fescue

Foliage height: ..... 25-30 cm  
Foliage width: ..... 60-70 cm  
Bloom height: ..... 30 cm  
Flowering time: ..... Late spring

Dense clumps of steel-blue foliage. In summer, tan-colored flowers appear. Does well in container plantings. PP29200

### Festuca glauca 'Boulder Blue'

#### Blue Fescue

Foliage height: ..... 25-35 cm  
Foliage width: ..... 20-30 cm  
Bloom height: ..... 35 cm  
Flowering time: ..... Summer

Clump-forming. Foliage is bright blue, blades are narrow. This Festuca seems to be slightly more drought tolerant. Great in a rock garden setting.

Photo courtesy of Walters Gardens, Inc.

### **Festuca glauca 'Elijah Blue'**

#### **Blue Sheep's Fescue**

Foliage height: ..... 20-30 cm  
 Foliage width: ..... 30-40 cm  
 Bloom height: ..... 30 cm  
 Flowering time: .... Early summer

For a long time this Fescue has been the leader. Silvery-blue foliage topped with blooms in early summer. Maintains its color all year.

### **Festuca glauca 'Pepindale Blue'**

#### **Blue Fescue**

Foliage height: ..... 15-25 cm  
 Foliage width: ..... 20-25 cm  
 Bloom height: ..... 25 cm  
 Flowering time: .... Early summer

A hardy Fescue. Drought tolerant once established. Intense, blue foliage with upright flower panicles that are blue, maturing to tan.

### **Festuca mairei**

#### **Maires Fescue**

Foliage height: ..... 60-90 cm  
 Foliage width: ..... 40-50 cm  
 Bloom height: ..... 90 cm  
 Flowering time: .... Early summer

Showy, tufted globes of pale grey-green make this ornamental grass extremely pretty. An excellent compact plant for borders or edging.

### **Glyceria striata**

#### **Fowl Mannagrass**

Foliage height: ..... 60-120 cm  
 Foliage width: ..... 40-60 cm  
 Bloom height: ..... 120 cm  
 Flowering time: .... Late summer

Spikelets range in color from green to purple. Grow in a container to control spread, for practical use in the water garden. Naturalizes quickly in moist soils. Good for erosion control.

### **Hakonechloa macroa**

#### **Hakone Grass**

Foliage height: ..... 45-60 cm  
 Foliage width: ..... 50-60 cm  
 Bloom height: ..... 60 cm  
 Flowering time: .... Late summer

Arching, dark green foliage suggests motion. Open flower panicles appear in July and August. Spreads slowly by rhizomes making it a good groundcover plant.

### **Hakonechloa macroa 'Albostriata'**

#### **Japanese Forest Grass**

Foliage height: ..... 40-50 cm  
 Foliage width: ..... 50-60 cm  
 Bloom height: ..... 50 cm  
 Flowering time: ..... Summer

A shade-loving grass with narrow, green and white striped foliage. Spectacular in shaded rock gardens or along shaded pathways.

### **Hakonechloa macroa 'All Gold'**

#### **Gold Hakone Grass**

Foliage height: ..... 45-60 cm  
 Foliage width: ..... 50-90 cm  
 Bloom height: ..... 60 cm  
 Flowering time: ..... Summer

Beautiful, cascading golden foliage. Slow spreading. Delicate and airy pink flowers mature to a creamy-white. Excellent as an accent plant in the shade garden or as a groundcover.

### **Hakonechloa macroa 'Aureola'**

#### **Golden Variegated Hakone Grass**

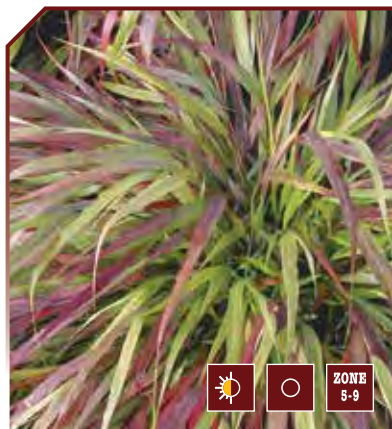

Foliage height: ..... 45-60 cm  
 Foliage width: ..... 50-60 cm  
 Bloom height: ..... 60 cm  
 Flowering time: ..... Summer

Brilliant foliage with a graceful cascading form. Outstanding in containers, rock gardens, or woodland gardens, providing a stunning contrast for the deep green foliage of evergreens, hostas or ferns. Colors show best in shady sites.

### Hakonechloa macra 'Beni-Kaze'

#### Japanese Forest Grass

Foliage height: ..... 45-60 cm  
Foliage width: ..... 50-60 cm  
Bloom height: ..... 60 cm  
Flowering time: ..... Summer

Arching, green foliage turns varying shades of red and purple in fall. Adds wonderful color and texture to the shade garden.

### Hakonechloa macra 'Fubuki'™

#### Variegated Hakone Grass

Foliage height: ..... 30-50 cm  
Foliage width: ..... 40-50 cm  
Bloom height: ..... 50 cm  
Flowering time: ..... Summer

A variegated Hakone grass with green and white striped leaves turning to attractive, orange-bronze tones in fall. Cool weather also brings out pink highlights. PP21757

### Helictotrichon sempervirens 'Saphirsprudel'

#### Sapphire Blue Oat Grass

Foliage height: ..... 60-100 cm  
Foliage width: ..... 50-60 cm  
Bloom height: ..... 100 cm  
Flowering time: ..... Late spring

Nice, tufting, bright steel-blue foliage. Small, tan seed heads on tall stems. Improved resistance to rust. Likes hot, dry conditions. Uses include rock gardens and planted in containers.

### Hierochloa odorata

#### Sweet Grass

Foliage height: ..... 25-50 cm  
Foliage width: ..... 60-100 cm  
Bloom height: ..... 50 cm  
Flowering time: ..... Late spring

The long leaves of this aromatic grass has a vanilla scent and is used to make dried braids or baskets. Also used as perfumes or incense. Bears brown spikelets in spring.

### Hordeum jubatum

#### Foxtail Barley (Squirrel-Tail)

Foliage height: ..... 30-60 cm  
Foliage width: ..... 15-20 cm  
Bloom height: ..... 60 cm  
Flowering time: ..... Late spring

Grows in dense bunches or tufts, usually short lived. Foliage is grey-green. Reproduces by seed or vegetatively by tillering.

### Hystrix patula

#### Bottle Brush Grass

Foliage height: ..... 90-100 cm  
Foliage width: ..... 30-60 cm  
Bloom height: ..... 100 cm  
Flowering time: ..... Late spring

Cool-season clumping grass with olive-green leaves is admired for its bristly flower heads that resemble bottlebrushes. Great in borders, beds, or as an accent.

### Imperata cylindrica 'Red Baron'

#### Japanese Blood Grass

Foliage height: ..... 30-50 cm  
Foliage width: ..... 30-40 cm

Stunning foliage plant provides a vibrant season-long display. Emerges bright green in spring with wine-red tips that continue downward until plant is blood-red in fall.

### Juncus effusus

#### Common Rush

Foliage height: ..... 90-120 cm  
Foliage width: ..... 50-80 cm  
Flowering time: .... Early summer

This hardy bog plant forms clumps or tufts of soft, rounded, green stems that lend a natural look to ponds. Small brown-green flowers. Excellent as a screen or bank retention, and attractive in containers.

### Liriope muscari 'Big Blue'

#### Lily Turf

Foliage height: ..... 40-50 cm  
Foliage width: ..... 30-40 cm  
Bloom height: ..... 50 cm  
Flowering time: ..... Late summer

Slight, dark blue flowers rise above dark green, grass-like foliage. Larger flowers than the other Lilyturf. An excellent groundcover or edging, especially in shady areas.

### Liriope muscari 'Monroe White'

#### Lily Turf

Foliage height: ..... 40-50 cm  
Foliage width: ..... 30-40 cm  
Bloom height: ..... 50 cm  
Flowering time: ..... Late summer

Evergreen with dark green leaf blades. Dense, white flower spikes emerge mid-summer. Perfect in mixed beds, slopes, edging, and erosion control on banks.

### Liriope muscari 'Royal Purple'

#### Lily Turf

Foliage height: ..... 40-50 cm  
Foliage width: ..... 30-40 cm  
Bloom height: ..... 50 cm  
Flowering time: ..... Late summer

Mid-summer produces deep purple flower spikes on dark green leaf blades. Perfect in mixed beds, slopes, edging, and erosion control on banks.

### Liriope muscari 'Variegata'

#### Variegated Lily Turf

Foliage height: ..... 40-50 cm  
Foliage width: ..... 20-30 cm  
Bloom height: ..... 50 cm  
Flowering time: ..... Late summer

Variegated leaf blades showing green with yellowish-to-white margins. Lavender flower spikes. Excellent for borders and erosion control. Moderately salt tolerant.

### Luzula 'Ruby Stiletto'

#### Woodrush

Foliage height: ..... 30-40 cm  
Foliage width: ..... 30-40 cm  
Bloom height: ..... 40 cm  
Flowering time: ..... Late spring

Dense, tufted mounds of swirling green foliage deeply tinged with ruby-red colors in early spring, late fall, and winter. Clusters of off-white flowers. Nice seed heads.

### Milium effusum 'Aureum'

#### Golden Wood Millet

Foliage height: ..... 30-40 cm  
Foliage width: ..... 30-40 cm  
Bloom height: ..... 40 cm  
Flowering time: ..... Late spring

In spring, dense mounds of chartreuse-yellow foliage emerge. Prefers a shady location.

### Miscanthus x giganteus

#### Giant Chinese Silver Grass

Foliage height: ..... 250-350 cm  
Foliage width: ..... 150-200 cm  
Bloom height: ..... 350 cm  
Flowering time: ..... Late summer

A giant, reaching 3-4 meters in height. In fall, showy light pink blooms appear maturing to silver. Foliage turns an orangy-red color in fall, fading to tan for winter. Sterile seed.

### Miscanthus purpurascens

#### Chinese Silver Grass

Foliage height: ..... 120-150 cm  
Foliage width: ..... 80-100 cm  
Bloom height: ..... 150 cm  
Flowering time: ..... Late summer

Stunning green foliage gradually develops shades of brilliant red-orange, making a real fall show in the garden. Creamy-white plumes make a beautiful cut flower.

### Miscanthus sinensis 'Adagio'

#### Maiden Grass

Foliage height: ..... 100-150 cm  
Foliage width: ..... 90-100 cm  
Bloom height: ..... 150 cm  
Flowering time: ..... Late summer

Narrow, green, arching foliage turns to a beautiful burgundy in fall.

A great choice for smaller gardens, or plant in large containers for patio or deck display.

### Miscanthus sinensis 'Autumn Anthem'

#### Maiden Grass

Foliage height: ..... 150-175 cm  
Foliage width: ..... 150 cm  
Bloom height: ..... 175 cm  
Flowering time: ..... Late summer

Hybridized and selected for its heavy flower production and perfect habit. Forms a densely rounded clump of dark green leaves with a narrow, white mid-rib. Feathery, cream plumes are borne prolifically, covering the top of the plant.

PP27411

### Miscanthus sinensis 'Autumn Light'

#### Maiden Grass

Foliage height: ..... 150-225 cm  
Foliage width: ..... 100-150 cm  
Bloom height: ..... 225 cm  
Flowering time: ..... Late summer

A tall, robust, cold-tolerant grass with narrow, green leaves. Exhibits a lovely yellowish fall color. Its large size creates an impressive display as a specimen or accent.

### Miscanthus sinensis Bandwidth

#### Japanese Silver Grass

Foliage height: ..... 75-90 cm  
Foliage width: ..... 75-90 cm  
Bloom height: ..... 90 cm  
Flowering time: ..... Fall

Bandwidth is short in stature and big on performance! This beautiful, tough ornamental grass is a real eye-catcher in the landscape. Rust resistant and infertile, for healthy, non-invasive plants in the landscape. PP29460

Photo courtesy of Ball

### Miscanthus sinensis 'Berlin'

#### Maiden Grass

Foliage height: ..... 175-200 cm  
Foliage width: ..... 100-150 cm  
Bloom height: ..... 200 cm  
Flowering time: ..... Late summer

Clump-forming with striking blue-green leaves topped with lovely flower plumes in fall. Excellent for screening, at waters edge, and in the landscape or garden.

### Miscanthus sinensis 'Cosmopolitan'

#### Variegated Miscanthus

Foliage height: ..... 175-225 cm  
Foliage width: ..... 125-150 cm  
Bloom height: ..... 225 cm  
Flowering time: ..... Late summer

Tall, upright, sturdy grower bears broad green blades of foliage with wide, creamy margins. Coppery-red flower plumes rise above the variegated foliage in early fall, creating a towering presence. Use as an accent or specimen.

### Miscanthus sinensis 'Dixieland'

#### Maiden Grass

Foliage height: ..... 120-150 cm  
Foliage width: ..... 75-90 cm  
Bloom height: ..... 150 cm  
Flowering time: ..... Late summer

An excellent compact form and vertically variegated variety, making it ideal for smaller gardens. Creamy, feathery flowers add interest in the fall.

### Miscanthus sinensis 'Encore'

#### Maiden Grass

Foliage height: ..... 150-185 cm  
Foliage width: ..... 150 cm  
Bloom height: ..... 185 cm  
Flowering time: ..... Early fall

Perfect choice for northern climates. Earlier bloomer, with a second flush of copper-purple plumes before frost hits. Flowers turn to a creamy, tan color with age. Forms a tall, upright clump of dark green leaves with white mid-ribs. PP29070

Photo courtesy of Walters Gardens, Inc.

### Miscanthus sinensis 'Fire Dragon'

#### Maiden Grass

Foliage height: ..... 180-215 cm  
Foliage width: ..... 90-120 cm  
Bloom height: ..... 215 cm  
Flowering time: ..... Late summer

Unique, upright selection with striking, fall foliage hues in brilliant orange, vermillion, and carmine. Abundant silky, silvery-white flower heads. Tidy clumping habit. Excellent for containers, borders, and modern landscape plantings. PP30374

ZONE  
5-9

### Miscanthus sinensis 'Gold Bar'

#### Dwarf Porcupine Grass

Foliage height: ..... 90-125 cm  
Foliage width: ..... 60-90 cm  
Bloom height: ..... 150 cm  
Flowering time: ..... Fall

Each blade has sharply defined bands of dark green and gold. A sturdy, upright grower that sends up maroon flower plumes in fall. Excellent in containers. Infertile. PP15193

ZONE  
5-9

### Miscanthus sinensis 'Goliath'

#### Maiden Grass

Foliage height: ..... 200-225 cm  
Foliage width: ..... 100-150 cm  
Bloom height: ..... 275 cm  
Flowering time: ..... Late summer

Massive, ornamental grass forms 180 cm wide clumps. Feathery, pink flowers appear in early fall and remain attractive through winter. Use for a bold accent or screen.

ZONE  
5

### Miscanthus sinensis 'Gracillimus'

#### Maiden Grass

Foliage height: ..... 150-180 cm  
Foliage width: ..... 100-125 cm  
Bloom height: ..... 225 cm  
Flowering time: ..... Fall

Narrow leaves and a large, vase-shaped growth habit create an impressive fine-textured display. Feathery, creamy flowers appear in early fall and remain through winter. Very showy in gardens and dried arrangements.

ZONE  
5-9

### Miscanthus sinensis 'Graziella'

#### Maiden Grass

Foliage height: ..... 125-150 cm  
Foliage width: ..... 90-125 cm  
Bloom height: ..... 175 cm  
Flowering time: ..... Late summer

Recommended for northern climates. Fine, green blades turning coppery-red in fall. White flowers in late summer turning to silvery-white in fall.

ZONE  
5-9

### Miscanthus sinensis 'Huron Blush'

#### Maiden Grass

Foliage height: ..... 90-100 cm  
Foliage width: ..... 60-90 cm  
Bloom height: ..... 140 cm  
Flowering time: ..... Fall

Broad green leaves that are accented by a white mid-rib. Foliage turns to a beautiful golden color in the fall and remains through winter. In late summer, soft, creamy-pink blooms appear that mature to a tan for the winter. Excellent as a specimen or as an accent.

ZONE  
4-9

### Miscanthus sinensis 'Huron Sunrise'

#### Maiden Grass

Foliage height: ..... 125-150 cm  
Foliage width: ..... 90-100 cm  
Bloom height: ..... 175 cm  
Flowering time: ..... Fall

Green foliage with silvery mid-rib. Abundance of burgundy plumes beginning in August and remain standing through winter. Developed by Martin Quinn.

ZONE  
4-9

### Miscanthus sinensis 'Kleine Fontäne'

#### Little Fountain Maiden Grass

Foliage height: ..... 90-100 cm  
Foliage width: ..... 100-125 cm  
Bloom height: ..... 150 cm  
Flowering time: ..... Late summer - fall

Narrow leaves and a large vase-shaped growth habit, create an impressive, fine-textured display. Silvery-red flowers appear in early fall and remain attractive through winter. Very showy in the garden and in dried arrangements.

ZONE  
5-9

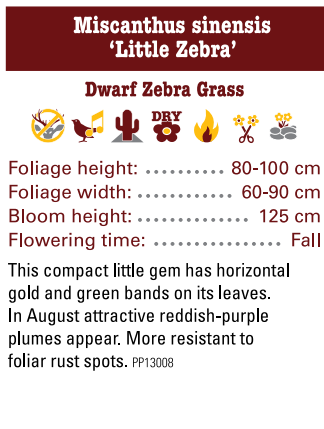

### Miscanthus sinensis 'Little Kitten'

#### Dwarf Maiden Grass

Foliage height: ..... 60-70 cm  
Foliage width: ..... 30-60 cm  
Bloom height: ..... 100 cm  
Flowering time: Late summer - fall

Extremely compact - a perfect fit for the smaller garden. Upward arching stems and leaves give it a fountain-like look. Plumes appear late summer. Also suitable in containers.

### Miscanthus sinensis 'Little Zebra'

#### Dwarf Zebra Grass

Foliage height: ..... 80-100 cm  
Foliage width: ..... 60-90 cm  
Bloom height: ..... 125 cm  
Flowering time: ..... Fall

This compact little gem has horizontal gold and green bands on its leaves. In August attractive reddish-purple plumes appear. More resistant to foliar rust spots. PP13008

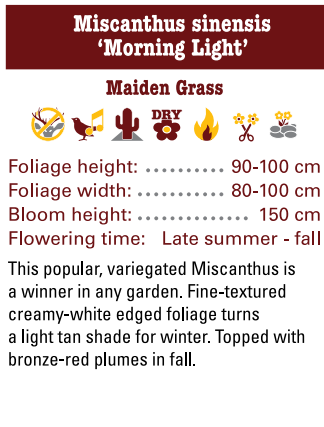

### Miscanthus sinensis 'Malepartus'

#### Maiden Grass

Foliage height: ..... 125-150 cm  
Foliage width: ..... 100-150 cm  
Bloom height: ..... 200 cm  
Flowering time: Late summer - fall

One of the showiest of all the Miscanthus. Graceful, arching leaves are topped by purplish-pink flower plumes maturing to silver. Foliage fall colors of deep bronze.

### Miscanthus sinensis 'Morning Light'

#### Maiden Grass

Foliage height: ..... 90-100 cm  
Foliage width: ..... 80-100 cm  
Bloom height: ..... 150 cm  
Flowering time: Late summer - fall

This popular, variegated Miscanthus is a winner in any garden. Fine-textured creamy-white edged foliage turns a light tan shade for winter. Topped with bronze-red plumes in fall.

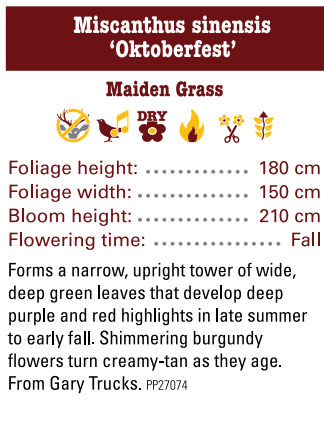

### Miscanthus sinensis 'Nippon'

#### Maiden Grass

Foliage height: ..... 90-100 cm  
Foliage width: ..... 100-125 cm  
Bloom height: ..... 125 cm  
Flowering time: Late summer - fall

One of the smallest Miscanthus grasses. Slender foliage is well separated from the flower plumes that bloom from the end of June until frost. Excellent choice for the small garden.

### Miscanthus sinensis 'Oktoberfest'

#### Maiden Grass

Foliage height: ..... 180 cm  
Foliage width: ..... 150 cm  
Bloom height: ..... 210 cm  
Flowering time: ..... Fall

Forms a narrow, upright tower of wide, deep green leaves that develop deep purple and red highlights in late summer to early fall. Shimmering burgundy flowers turn creamy-tan as they age. From Gary Trucks. PP27074

### Miscanthus sinensis 'Rigoletto'

#### Maiden Grass

Foliage height: ..... 100-125 cm  
Foliage width: ..... 100-125 cm  
Bloom height: ..... 150 cm  
Flowering time: ..... Fall

Compact, neatly variegated green and white foliage highlight this plant. Red-tinged to bronze plumes turning silvery-white. Great in small gardens or containers.

### Miscanthus sinensis 'Rotsilber'

#### Red Silver Maiden Grass

Foliage height: ..... 125-150 cm  
Foliage width: ..... 100-125 cm  
Bloom height: ..... 175 cm  
Flowering time: ..... Fall

Narrow, light green foliage turning to hues of orange-red in fall and light tan for winter. Large, reddish-pink flowers in fall. Also good, fresh or dried, in arrangements.

### Miscanthus sinensis 'Sara-bande'

#### Maiden Grass

Foliage height: ..... 100-125 cm  
Foliage width: ..... 100-125 cm  
Bloom height: ..... 150 cm  
Flowering time: ..... Fall

Narrow, silvery leaves with a white midrib. Feathery, bronze flowers that turn silver over time. Useful as a specimen, planted in masses, or along a border.

### Miscanthus sinensis 'Silberfeder'

#### Silver Feather Grass

Foliage height: ..... 175-200 cm  
Foliage width: ..... 100-125 cm  
Bloom height: ..... 250 cm  
Flowering time: Late summer - fall

Large, stately ornamental grass with gleaming white, feathery flowers rising high above the foliage. Creates an impressive display in the garden or as an accent.

### Miscanthus sinensis 'Sirene'

#### Japanese Silver Grasses

Foliage height: ..... 125-150 cm  
Foliage width: ..... 125-150 cm  
Bloom height: ..... 190 cm  
Flowering time: Late summer - fall

Clump-forming, narrow, green leaves with silvery mid-rib. Large panicles of reddish-pink flowers. Use as an accent plant or specimen for winter interest.

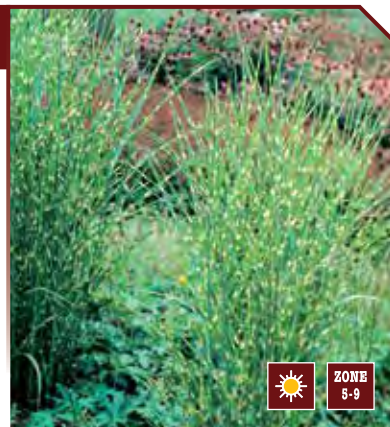

### Miscanthus sinensis 'Strictus'

#### Porcupine Grass

Foliage height: ..... 175-200 cm  
Foliage width: ..... 100-150 cm  
Bloom height: ..... 250 cm  
Flowering time: Late summer - fall

Stunning gold-banded foliage. Similar to Zebrinus but has a more upright growth habit. Coppery flower plumes in fall make a great cut flower, fresh or dried.

### Miscanthus sinensis 'Variegatus'

#### Variegated Maiden Grass

Foliage height: ..... 150-200 cm  
Foliage width: ..... 100-150 cm  
Bloom height: ..... 225 cm  
Flowering time: Late summer - fall

Green and white variegated foliage forming a loose clump. Large, deep pinkish-red flowers turning to silvery-white. Ideal for screening or as a specimen.

### Miscanthus sinensis 'Zebrinus'

#### Zebra Grass

Foliage height: ..... 150-175 cm  
Foliage width: ..... 100-150 cm  
Bloom height: ..... 225 cm  
Flowering time: Late summer - fall

Similar to Strictus but clump is looser and more arching. Horizontal "zebra"-like bands on deep green foliage. Reddish blooms, which are long lasting once dried.

### Molinia arundinacea 'Skyracer'

#### Tall Moor Grass

Foliage height: ..... 100 cm  
Foliage width: ..... 90-125 cm  
Bloom height: ..... 220 cm  
Flowering time: Summer

Gracefully moving flower stalks, even in the slightest of breezes, add to the beauty of this grass. Bronze seed heads develop in the fall.

### Molinia caerulea 'Moorflamme'

#### Moor Flame Grass

Foliage height: ..... 30 cm  
Foliage width: ..... 40-60 cm  
Bloom height: ..... 60 cm  
Flowering time: Summer

Tall, lightweight purple flowers stir with the gentlest breeze. Beautiful, intense orange-red fall color. Use as an accent or specimen.

### Molinia caerulea 'Moorhexe'

#### Moor Grass

Foliage height: ..... 50 cm  
Foliage width: ..... 70-80 cm  
Bloom height: ..... 90 cm  
Flowering time: ..... Summer

Rich dark purple flowers bloom in mid-summer above upright clumps of green foliage. Outstanding in mass plantings, borders, or as an accent.

### Molinia caerulea 'Variegata'

#### Variegated Purple Moor Grass

Foliage height: ..... 30-50 cm  
Foliage width: ..... 40-60 cm  
Bloom height: ..... 50-80 cm  
Flowering time: ..... Summer

Tall, upright, spidery flower plumes move gracefully above slender, light yellow and green variegated foliage. Great in borders, naturalized areas, or as a specimen.

### Ophiopogon planiscapus 'Nigrescens'

#### Black Mondo Grass

Foliage height: ..... 15-20 cm  
Foliage width: ..... 20-30 cm  
Bloom height: ..... 25 cm  
Flowering time: Late summer - fall

Striking, very dark green, almost black-like leaves forming grassy tufts. Purplish-white flowers appear on short stems above the foliage. Ideal in rock gardens or mixed borders.

### Panicum virgatum

#### Switch Grass

Foliage height: ..... 90-120 cm  
Foliage width: ..... 75-100 cm  
Bloom height: ..... 140-200 cm  
Flowering time: Late summer - fall

Blue-green foliage that changes to yellows and reds in the fall. Airy, pink-tinged flowers appear late summer. A main species of the North American tallgrass prairie.

### Panicum virgatum 'Blood Brothers'

#### Switch Grass

Foliage height: ..... 60 cm  
Foliage width: ..... 50-70 cm  
Bloom height: ..... 150 cm  
Flowering time: ..... Late summer

This beauty starts out with green-blue leaves and progresses to outstanding fall colors. By mid-summer the leaf tips are already turning blood-red and this only intensifies as the season progresses. Small reddish panicles turn to tan seedheads.

### Panicum virgatum 'Cape Breeze'

#### Dwarf Switch Grass

Foliage height: ..... 60 cm  
Foliage width: ..... 50-70 cm  
Bloom height: ..... 75 cm  
Flowering time: ..... Summer

Early bloom time and impressive golden inflorescence that hold tight and do not shatter. A more compact and landscape friendly habit, resistance to rust and ability to push lush, green foliage well into November make this a standout selection. From North Creek Nurseries. PP24895

NEW

### Panicum virgatum 'Dallas Blues'

#### Blue Switch Grass

Foliage height: ..... 150 cm  
Foliage width: ..... 70-100 cm  
Bloom height: ..... 180 cm  
Flowering time: ..... Fall

This American native has broad purplish-blue leaves topped with reddish-purple plumes making it one of the best Panicums available. The large flowers are also great for cutting. PP11202

### Panicum virgatum 'Hänsle Herms'

#### Red Switch Grass

Foliage height: ..... 90-105 cm  
Foliage width: ..... 80-100 cm  
Bloom height: ..... 105-120 cm  
Flowering time: ..... Late summer

Foliage starts out green, then takes on reddish tones in late summer, turning to burgundy in the fall. Towards late summer/autumn, clusters of small spikelets appear.

### Panicum virgatum 'Heavy Metal'

#### Switch Grass

Foliage height: ..... 100-125 cm  
Foliage width: ..... 50-80 cm  
Bloom height: ..... 125-150 cm  
Flowering time: ..... Late summer

A cultivar of an American native Prairie grass that features spectacular, metallic blue foliage. Auburn flowers and seed heads are finely textured and airy, providing good winter interest.

ZONE  
4

### Panicum virgatum 'Hot Rod'

#### Switch Grass

Foliage height: ..... 90-120 cm  
Foliage width: ..... 90 cm  
Bloom height: ..... 120 cm  
Flowering time: ..... Late summer

Start your engines! This Emerald Coast Growers selection revs up into the red zone earlier than other switch grasses. Firmly upright blades emerge blue-green, reddening rapidly until the whole plant is a rich, deep maroon. An American native. PP26074

ZONE  
4-10

### Panicum virgatum 'Northwind'

#### Switch Grass

Foliage height: ..... 100-125 cm  
Foliage width: ..... 70-90 cm  
Bloom height: ..... 125-150 cm  
Flowering time: ..... Late summer

Strongly upright, narrow clumps of olive-blue-green foliage make for a wonderful accent plant or as a stunning backdrop in the landscape. Many airy flower panicles that will last into winter. Fall foliage color is tan to beige. Named Perennial Plant of the Year in 2014.

ZONE  
4-10

### Panicum virgatum 'Prairie Fire'

#### Switch Grass

Foliage height: ..... 125 cm  
Foliage width: ..... 70-80 cm  
Bloom height: ..... 150 cm  
Flowering time: ..... Late summer

Blue-green foliage that turns to wine-red starting at the tips until the entire plant becomes fiery-red. Pinkish-red cloud-like panicles rise above the foliage. PP19367

ZONE  
4

### Panicum virgatum 'Prairie Sky'

#### Switch Grass

Foliage height: ..... 150 cm  
Foliage width: ..... 75-90 cm  
Bloom height: ..... 175 cm  
Flowering time: ..... Late summer

Rich clouds of amber flowers above a well rounded mound of delicate powdery-blue foliage. Slightly bluer than Heavy Metal. Foliage turns to gorgeous golden hues in fall.

ZONE  
3

### Panicum virgatum 'Rotstrahlbusch'

#### Red Switch Grass

Foliage height: ..... 90-120 cm  
Foliage width: ..... 60-90 cm  
Bloom height: ..... 120-140 cm  
Flowering time: ..... Late summer

Foliage tinged with wine-red all season long. Among the best wine-red Panicums available to date. Airy seed heads and foliage turn beige-brown for the winter.

ZONE  
3

### Panicum virgatum 'Ruby Ribbons'

#### Red Switch Grass

Foliage height: ..... 125 cm  
Foliage width: ..... 70-90 cm  
Bloom height: ..... 150 cm  
Flowering time: ..... Late summer

Sports wide blue-green foliage maturing into beautiful burgundy fall colors. In late summer airy flowers and seedheads emerge above foliage, lasting well into winter. Deer resistant hybrid. Bred by Dr. Mark Brand, University of Connecticut. PP17944

ZONE  
4

### Panicum virgatum 'Shenandoah'

#### Switch Grass

Foliage height: ..... 100 cm  
Foliage width: ..... 60-90 cm  
Bloom height: ..... 125 cm  
Flowering time: ..... Late summer

Unmatched foliage color of steely blue-green turning to shades of purple, violet, burgundy, and eventually wine-red. Airy seed heads. Flowers are excellent for cutting as fresh or dried.

ZONE  
4

### **Pennisetum alopecuroides**

#### **Fountain Grass**

Foliage height: ..... 60-100 cm  
Foliage width: ..... 80-100 cm  
Bloom height: ..... 100-150 cm  
Flowering time: ..... Late summer

Clump-forming, dark green, gracefully arching foliage that bears reddish, coppery-tan flowers resembling bottlebrushes or foxtails. Golden-yellow to tan/beige fall color. Plumes are valued in flower arrangements, fresh or dried.

### **Pennisetum alopecuroides 'Burgundy Bunny'**

#### **Dwarf Fountain Grass**

Foliage height: ..... 30 cm  
Foliage width: ..... 20-30 cm  
Bloom height: ..... 40 cm  
Flowering time: ..... Late summer

This miniature, narrow-leaved fountain grass starts out green, but by summer it begins to turn red, eventually becoming an intense burgundy which lasts until frost. Whitish, cream-colored plumes rise slightly over the foliage. Excellent in containers, border fronts, or in mass plantings. PP21917

Photo courtesy of Walters Gardens, Inc.

### **Pennisetum alopecuroides 'Cassian'**

#### **Fountain Grass**

Foliage height: ..... 40 cm  
Foliage width: ..... 30-45 cm  
Bloom height: ..... 60 cm  
Flowering time: ..... Late summer

Narrow, bright green foliage topped by white, tinted-slightly-pink, bottlebrush-like plumes. Fall foliage sports colors of rich golden-yellow sprinkled generously with reds and oranges. Once established, it is drought tolerant. A Kurt Blumel selection.

### **Pennisetum alopecuroides 'Hameln'**

#### **Dwarf Fountain Grass**

Foliage height: ..... 50-75 cm  
Foliage width: ..... 50-60 cm  
Bloom height: ..... 75-100 cm  
Flowering time: ..... Late summer

A proven staple in the landscape. Bright green, arching foliage that turns a golden, copperish hue in fall. Silvery-white, bottlebrush-like flowers. Very effective in mass plantings.

### **Pennisetum alopecuroides 'Little Bunny'**

#### **Miniature Fountain Grass**

Foliage height: ..... 30 cm  
Foliage width: ..... 20-30 cm  
Bloom height: ..... 40 cm  
Flowering time: ..... Late summer

Profuse buff-colored flower plumes top the miniature, dark green, mounded foliage. A good choice for the sunny rock garden, containers, or as edging for the garden.

### **Pennisetum alopecuroides 'Lumen Gold'**

#### **Fountain Grass**

Foliage height: ..... 45 cm  
Foliage width: ..... 60 cm  
Bloom height: ..... 60 cm  
Flowering time: ..... Late summer

Compact, globe-shaped plant with bright golden foliage that keeps its colour in colder climates. In summer, an abundance of brown flowers appears. Plant alone, in mass plantings, or use as a garden border. Also great in mixed containers. PP27435

**NEW**

Photo courtesy of Concept Plants BV®

### **Pennisetum alopecuroides 'Moudry'**

#### **Black Fountain Grass**

Foliage height: ..... 60 cm  
Foliage width: ..... 50-75 cm  
Bloom height: ..... 70 cm  
Flowering time: ..... Late summer

Lush green foliage and large, almost black foxtails make this ornamental grass an eye-catcher in any garden. Fall foliage turns to a deep golden color. Wonderful in mass plantings.

### **Pennisetum alopecuroides 'Piglet'**

#### **Fountain Grass**

Foliage height: ..... 25 cm  
Foliage width: ..... 30-40 cm  
Bloom height: ..... 50 cm  
Flowering time: ..... Late summer

Dwarf fountain grass with profuse tan-colored plumes over neat, green foliage. A great choice for borders and patio containers. Selected by Brent Horvath, Intrinsic Perennial Gardens. PP19074

### **Pennisetum alopecuroides 'Red Head'**

#### **Fountain Grass**

Foliage height: ..... 100 cm  
Foliage width: ..... 90-120 cm  
Bloom height: ..... 125 cm  
Flowering time: ..... Late summer

Early bloomer with 20-25 cm long reddish-purple flower plumes borne above the dark green foliage. Excellent as a cut flower, fresh or dried. Introduced by Intrinsic Perennial Gardens.

### **Pennisetum orientale 'Karley Rose'**

#### **Oriental Fountain Grass**

Foliage height: ..... 90 cm  
Foliage width: ..... 90-120 cm  
Bloom height: ..... 100 cm  
Flowering time: ..... June - October

One of the best fountain grasses available, this species boasts soft-looking dusty-rose flower spikes that bloom above a handsome mass of dark green foliage. Stunning in mass plantings or in containers. Selected at Sunny Border Nurseries. PP12909

### **Pennisetum setaceum 'Rubrum'**

#### **Purple Fountain Grass**

Foliage height: ..... 90 cm  
Foliage width: ..... 60-90 cm  
Bloom height: ..... 120 cm  
Flowering time: ..... June - frost

Spectacular purplish-maroon leaves, topped with rose-red plumes lasting from June to first frost. Most often grown as an annual. Use in mixed perennial beds, mixed containers, or in mass plantings.

### **Pennisetum setaceum 'Sky Rocket'**

#### **Variegated Fountain Grass**

Foliage height: ..... 60-90 cm  
Foliage width: ..... 60-90 cm  
Bloom height: ..... 120 cm  
Flowering time: ..... July - October

Graceful, smokey-pink flower plumes atop the striking, green and white variegated foliage are lovely in the summer landscape. Most often grown as an annual. Also used in mixed containers.

PP21497

### **Phalaris arundinacea 'Picta'**

#### **Variegated Ribbon Grass**

Foliage height: ..... 70 cm  
Foliage width: ..... 70-150 cm  
Bloom height: ..... 100 cm  
Flowering time: ..... Late spring - summer

A vigorous grass with white and green striped leaves. Early spring growth emerges with a pink tinge that fades by early summer. Soft, white flower panicles rise 15-30 cm above the foliage and turn brown in late summer, providing winter interest. Plant where plants can spread freely or plant in containers to prevent excessive spreading in the garden.

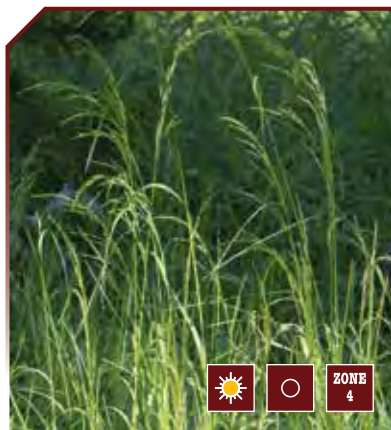

### **Phalaris arundinacea 'Strawberries & Cream'**

#### **Ribbon Grass**

Foliage height: ..... 60 cm  
Foliage width: ..... 60-80 cm  
Bloom height: ..... 90 cm  
Flowering time: ..... Late spring - summer

Also known as 'Feesey's Form'. Multi-colored, striking foliage that brightens the garden. A vigorous grower, ideal for stream banks, erosion control, or groundcover under trees. In the garden, grow in containers above or below ground to control spread. Can be mowed to remove damaged leaves if needed. An excellent accent in fresh flower arrangements.

### **Poa palustris**

#### **Fowl Bluegrass**

Foliage height: ..... 30-60 cm  
Flowering time: ..... June - September

A perennial grass used as fodder and restoration in wet meadows. Grows naturally in ditches and along stream banks. The spikelets are open panicles of varying colours.

### **Schizachyrium scoparium**

#### **Little Bluestem**

Foliage height: ..... 100 cm  
Foliage width: ..... 50-70 cm  
Bloom height: ..... 125 cm  
Flowering time: ..... Late summer

Spikey blades of blue-green foliage which, after the first frost, turn to shades of copper, brown, and crimson. Fluffy, white seed heads in fall. North American native. Plant as a specimen, in borders, and in rock gardens.

### Schizachyrium scoparium 'Smoke Signal'

#### Little Bluestem

Foliage height: ..... 90 cm  
Foliage width: ..... 50-70 cm  
Bloom height: ..... 120 cm  
Flowering time: ..... Late summer

A beautifully refined version of our native cultivar that takes on scarlet-red tones in late summer, turning deeper red-purple in fall. Tiny, tan seed heads appear in early fall. Maintains a strictly upright habit through fall without flopping. PP27433

### Schizachyrium scoparium 'Standing Ovation'

#### Upright Little Bluestem

Foliage height: ..... 90 cm  
Foliage width: ..... 50-70 cm  
Bloom height: ..... 120 cm  
Flowering time: ..... Late summer

Blue-green foliage with darker purple hues near the base of the plant. Fall colors of fiery-red and oranges. Fluffy, white seed heads that attract songbirds to the garden. PP25202

### Schizachyrium scoparium 'The Blues'

#### Prairie Blues Little Bluestem

Foliage height: ..... 70 cm  
Foliage width: ..... 60-70 cm  
Bloom height: ..... 90 cm  
Flowering time: ..... Late summer

Features strikingly coloured, upright foliage with gentle arching bluish-bronze seed heads. Beautiful in the garden as a cool complement to vibrant colours or for naturalizing the landscape. Plumes make for wonderful winter interest.

### Schizachyrium scoparium 'Twilight Zone'

#### Little Bluestem

Foliage height: ..... 120 cm  
Foliage width: ..... 60-70 cm  
Bloom height: ..... 140 cm  
Flowering time: ..... Late summer

A standout cultivar that possesses a nearly iridescent, silvery mauve-purple cast all over beginning in mid-summer. Retains this colour through fall when brighter purple highlights develop. Forms a strictly upright, narrowly columnar clump. PP27432

Photo courtesy of Walters Gardens, Inc.

### Scirpus acutus

#### Hardstem Bulrush

Foliage height: ..... 100-175 cm  
Foliage width: ..... 50-100 cm  
Bloom height: ..... 175 cm  
Flowering time: Late spring - summer

A stout grower with roundish, green stems and purplish-brown flower spikes. Vigorous grower. Use in wet areas or at waters edge.

### Scirpus atrovirens

#### Dark Green Bulrush

Foliage height: ..... 90-120 cm  
Foliage width: ..... 90-125 cm  
Bloom height: ..... 120-150 cm  
Flowering time: Late spring - summer

Semi-evergreen broadleaf with dark brown, almost black inflorescence. Most commonly found in wet meadows and swales. Provides cover for ground-nesting birds.

### Scirpus cyperinus

#### Woolgrass

Foliage height: ..... 90-150 cm  
Foliage width: ..... 90-125 cm  
Bloom height: ..... 120-150 cm  
Flowering time: Late spring - summer

A grass-like plant with slender, glossy leaves. The fluffy seed clusters in fall add ornamental interest. The seeds are a food source for birds. Will grow in wet soil or shallow water, but also in moist, well-drained soil. A wonderful vertical accent for bogs and ponds.

### Scirpus microcarpus

#### Panicled Bulrush

Foliage height: ..... 60-120 cm  
Foliage width: ..... 30-60 cm  
Bloom height: ..... 170 cm  
Flowering time: ..... Summer

A large, leafy plant with sharp, serrated yellow-green foliage. Stems are slightly triangular in shape. Small clusters of spikelets. Grows in wooded wetlands, standing water, and swampy areas. Uses include erosion control and as a habitat for wildlife.

### *Sesleria autumnalis*

#### Autumn Moor Grass

Foliage height: ..... 25-30 cm  
Foliage width: ..... 40-60 cm  
Bloom height: ..... 35-50 cm  
Flowering time: ..... Fall

Cool-season grass with narrow yellow-green foliage producing white flower panicles which, in late season, become tidy, tan seedheads.

Tolerates light shade. Great as a garden edge or in mass plantings.

### *Sesleria caerulea*

#### Blue Moor Grass

Foliage height: ..... 20-25 cm  
Foliage width: ..... 25-30 cm  
Bloom height: ..... 35-40 cm  
Flowering time: ..... Spring

This plant sports a bi-coloured leaf being bluish on top and green on the bottom.

Dark purple flower spikes appear in spring. Used for edging or planted in masses as a groundcover.

### *Sesleria heufleriana*

#### Blue-Green Moor Grass

Foliage height: ..... 30-40 cm  
Foliage width: ..... 30-50 cm  
Bloom height: ..... 50-60 cm  
Flowering time: ..... Spring

A very early blooming Moor Grass that produces white flower panicles above the green and blue, grass-like foliage. Makes a great accent for the garden's edge, rock garden, or meadow garden.

### *Sisyrinchium angustifolium*

#### Blue-Eyed Grass

Foliage height: ..... 50 cm  
Foliage width: ..... 10-15 cm  
Bloom height: ..... 50 cm  
Flowering time: ..... Late spring

Clump-forming, narrow grass-like leaves topped with light blue star-shaped flowers with a yellow centre.

Flowers open in the morning and close again in the evening. Not a true grass - actually is a member of the Iris family.

### *Sisyrinchium angustifolium* 'Lucerne'

#### Blue-Eyed Grass

Foliage height: ..... 20 cm  
Foliage width: ..... 15-20 cm  
Bloom height: ..... 25 cm  
Flowering time: ..... Late spring

Clump-forming, narrow grass-like leaves topped with violet-blue star-shaped flowers with a yellow eye. Great along walkways or in the rock garden.

Photo courtesy of Ball

### *Sorghastrum nutans*

#### Indian Grass

Foliage height: ..... 120 cm  
Foliage width: ..... 45-60 cm  
Bloom height: ..... 220 cm  
Flowering time: ..... Late summer

Clump-forming grass with an upright, open habit. Features slender blue-green leaves that turn yellow in the fall. Narrow, feathery panicles of tan-yellow flowers turn bronze in fall. A great vertical accent for borders, also effective in mass plantings. A North American prairie grass.

### *Sorghastrum nutans* 'Indian Steel'

#### Indian Grass

Foliage height: ..... 120 cm  
Foliage width: ..... 45-60 cm  
Bloom height: ..... 150 cm  
Flowering time: ..... Late summer

Upright clumps of slender, metallic blue-green leaves. Stiff, vertical reddish-brown flowers. Drought tolerant once established. Also tolerates walnut trees.

### *Sorghastrum nutans* 'Sioux Blue'

#### Indian Grass

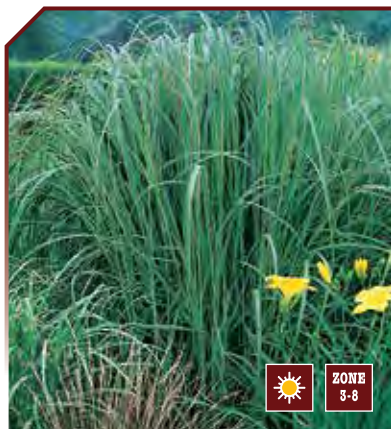

Foliage height: ..... 175 cm  
Foliage width: ..... 50-80 cm  
Bloom height: ..... 200 cm  
Flowering time: ..... Late summer

Clump-forming, erect foliage starts out powder-blue, turning yellow in the fall and finishing in hues of burnt orange. Coppery-brown flowers make for great cuts - fresh or dried. It is heat tolerant and disease resistant. Use in mass plantings or for erosion control.

### **Spartina pectinata**

#### **Prairie Cordgrass**

Foliage height: ..... 150 cm  
 Foliage width: ..... 100-120 cm  
 Bloom height: ..... 210 cm  
 Flowering time: ..... Late summer

Very rigid, upright, green foliage.  
 In the fall, it turns a bright gold-yellow colour with tan coloured seedheads.  
 Stabilizes pond edges and streambanks.  
 A good container plant for pond gardens.

### **Sporobolus heterolepis**

#### **Prairie Dropseed**

Foliage height: ..... 60 cm  
 Foliage width: ..... 45-60 cm  
 Bloom height: ..... 100 cm  
 Flowering time: ..... Late summer

Narrow, emerald-green leaves.  
 Clump-forming. Foliage in fall turns to an attractive golden-bronze splashed with deep orange to copper highlights.  
 Seeds eventually drop - hence the name "dropseed". Native prairie grass.

### **Sporobolus heterolepis 'Tara'**

#### **Dwarf Prairie Dropseed**

Foliage height: ..... 30 cm  
 Foliage width: ..... 30-50 cm  
 Bloom height: ..... 60 cm  
 Flowering time: ..... Late summer

Shorter and more upright than the species, having fine-textured, vase-shaped foliage that turns a splendid gold to orange-red in fall. Songbirds dine on the scented seedheads that rise above the foliage. Great winter interest. Used in rock gardens, garden edges, and also in mass plantings.

### **Stipa tenuissima (Nassella)**

#### **Mexican Feather Grass**

Foliage height: ..... 45-60 cm  
 Foliage width: ..... 30-45 cm  
 Bloom height: ..... 60 cm  
 Flowering time: ..... Late summer

Said to be the most graceful of the grasses. Silky, thread-like, bright green foliage moves in the slightest of breezes. Foliage golden-brown in fall with wheat-coloured seed heads. Great in beds or borders and also does well in containers.

### **Typha angustifolia**

#### **Narrow Leaf Cattail**

Foliage height: ..... 150-200 cm  
 Foliage width: ..... 200-500 cm  
 Bloom height: ..... 200 cm  
 Flowering time: ..... Late summer

Hardy bog cattail having tall, slender, lithe leaves that sway in the breeze. Large, brown flower spikes. Excellent for screening purposes. Found in marshes, wet ditches, and edges of ponds, rivers, and streams.

### **Typha latifolia**

#### **Common Cattail**

Foliage height: ..... 125-200 cm  
 Foliage width: ..... 200-500 cm  
 Bloom height: ..... 200 cm  
 Flowering time: ..... Late summer

Large, hardy bog cattail has leaves that sway in the breeze. Large, brown fruiting heads top strong stalks in summer. Foliage turns yellow-brown in autumn. Excellent for screening.
